

## CHULA VISTA COMMUNITY-BASED TRANSPORTATION PLAN: "KIDS WALK & BIKE TO SCHOOL"

The City of Chula Vista is excited to announce a new citywide project to improve neighborhood pedestrian safety. The Traffic Engineering Department in collaboration with WalkSanDiego a regional organization dedicated to making neighborhoods more walkable, will host a series of community meetings and workshops over the next year at public elementary schools throughout the City gathering residents to conduct walk audits (walking neighborhood assessments) and create a plan for improvements in their neighborhood.

Each walk audit will give Chula Vista residents an opportunity to walk through their neighborhood with representatives from the City and WalkSanDiego, pointing out specific challenges residents face when walking within their own neighborhoods. After each walk audit, WalkSanDiego will lead a discussion with residents to document and prioritize improvements, creating a plan to improve pedestrian safety in every neighborhood in Chula Vista.

*Please attend a workshop in your neighborhood, upcoming workshops include:*

Date	Time	Neighborhood	Location
11/5/08	8:15 – 11:00 am	Lauderbach Elementary School	School Cafeteria 390 Palomar Street Chula Vista, CA 91911
